

# The Prince Albert – Es Canar

## DRINKS MENU

### Water and ICE in our drinks

Here at The Prince Albert all our ice cubes are made with water that has been through the reverse osmosis treatment. This treatment removes 99% of bacteria and impurities and can be safely consumed.

Our coffees and teas are brewed using bottled mineral water especially made for coffee machines. The water we serve together with our single malt whiskies is also bottled water.

You can enjoy our full range of hot and cold drinks safe in the knowledge they will not cause you and your family an upset tummy.
